

I listen to K Love all day at work and in my car. At 90.3 in Findlay. I have been listening for over a year and it has helped me through a very difficult time in my life and continues to do so. I like that it is listener supported. I sponsor 1 hr of air time each month. That is how important that I feel this radio station is. I would be very upset if they were forced off the air, the message from K love is very important in coping with many of today's issues.
